Hi Charles

You had helped list my home in Alpharetta this last summer. I liked your affordability and the additional advantage of buyers being able to get money back. I have my license and I was looking for a place to place it. I primarily want to work for myself and a couple of friends this summer. Do you offer a monthly fee to agents to have their license housed with you? I was with Drake Realty years ago but their fees for rental properties is fairly high so I was looking for something else since I know that is one area where I will have a few things happening.

Thank you for your consideration,
Erika Kandler
